CAREER TIPS

Physical education studies the **science of psychomotor skills** deployed while playing sports. In other words, it is a science that studies different kinds

of **psychological skills** required to make **physical movements**. The **different types of sports** need a different set of psychomotor skills, which are studied in Physical Education (PE) to sharpen particular sports skills. PE studies all physical aspects to keep the body healthy and active. Here are the details on the opportunities, scope, salary, colleges, for Physical Education.

The scope of Physical Education

Physical education is a **vast subject** that studies the biological, psychological, physical and nutritional aspects of sports. It is essentially an **interdisciplinary area of inquiry** aimed at identifying and knowing all factors, which can keep the human body healthy so that he can play his best.

Physical Education in Schools and Colleges

Physical education is now a **compulsory subject** in schools and Universities. There is a growing awareness that physical activities and studies are equally important. Students are encouraged to indulge in any physical activity. As the saying goes, in a healthy body lives a healthy mind. And, a healthy mind will have more concentration power.

Students are **introduced to different kinds of games** and sports so that they can explore their area of interest. After that, they are **trained physically** to master that particular activity/game/interest. The physical education instructors help the players to

streamline their bodily movements efficiently as per the requirements of the particular sport.

Besides, physical training helps to gain physical fitness. It keeps one's heart healthy by increasing blood circulation, which increases the oxygen supply in the body. More oxygen in the blood decreases the sugar level and keeps one away from sugar-related diseases. It also helps in maintaining the **right body weight**. Physical activities are also stress-busters that keeps one's mind healthy.

Courses Available

One can opt to study **physical education after 10+2**. A student from any discipline can get enrolled in the physical education course. There is **no specific age limit** to pursue the course, barring a few sports.

Diploma courses in Physical Education

Name of the course	Duration of the course

Career In Physical Education 2022 Eligibility

- A candidate should have completed 10+2 or an equivalent from a recognised University/ Board in any discipline.

- A candidate should qualify for an entrance test PECET (Physical education common entrance test) to get admission in the physical education course.
- A candidate should be physically fit. An unfit candidate, even if qualifies for the PECET exam will not be taken.

Areas of Employment

After the completion of the physical education course, a student can be either employed in the health or sports industries.

One can also open his/her fitness or training centre.

One can also find a job in the Sports clubs; as Stadium staff; health clubs; gymnasiums; as a teacher in schools and colleges; corporate teams and health and sports-related organisations.

Job Profiles

Physical Education Jobs

A physical education instructor can work on various profiles. Some of the profiles are –

• Teacher	• Physical Education Trainer
• Assistant Professor	• Health Educator
• Sports Manager	• Coach
• Physical Therapist	• Fitness Instructor
	• Sports Journalist

Skills Required

- ✓ An excellent physical education teacher or instructor should have such a personality trait with which he/she could work efficiently.
- ✓ A physical education teacher should have **leadership qualities** to win the trust and respect of his students. He should **motivate**

them towards their goal and teach them ways to **achieve their goals**.

- ✓ He should have good **interpersonal skills** to understand the **individuality** of each of his students. Without having a good understanding of the emotional and mental makeup of his students, he won't be able to mentor and guide them well.
